

PHCS Healthy Directions Network

Imagine more coverage with a national primary PPO that turns your local PPO network into a seamless national solution.

Your local HMO or primary PPO network may be the best option for your members who live and work inside the local service area. But if your members are located in pockets around the country—or if they travel frequently—you may find that the local area is too restricted. With PHCS Healthy Directions, you extend your local HMO or PPO network coverage to all other corners of the U.S. in one streamlined relationship.

PHCS Healthy Directions gives you all the savings, access and quality benefits of the PHCS Network but with the flexibility to work in conjunction with one or more local primary PPO networks.

You get access to:

- A network of more than 4,300 hospitals, 70,000 ancillary care facilities and 650,000 healthcare professionals throughout the country.
- The best national savings in the industry – including 33% inpatient and 42% practitioner average savings.

With PHCS Healthy Directions, you eliminate the need to pay full charges for services when your members live, travel or attend school outside the service area. Providers receive the full benefits of in-network reimbursement as though they were contracted directly with you, and you minimize your out-of-network costs.

PHCS Healthy Directions:

- Allows you to provide seamless access to healthcare on a national basis through a high quality provider network.
- Reduces out-of-network costs incurred when your members reside or travel outside the service area.
- Gives your members peace of mind knowing that they are accessing providers who have met the strict credentialing standards of NCQA, an independent, nationally-recognized quality organization.
- Automatically interfaces with our complementary network—MultiPlan Network—to further extend your network’s coverage both within your service area or outside of it.

With our March 2010 acquisition of Viant, we expect to improve access and discounts as we integrate providers from Beech Street and Texas True Choice into PHCS Healthy Directions.

MultiPlan Solutions:

Networks:

- Primary PPO
- Complementary PPO
- Specialty Networks

Non-Network Solutions:

- Negotiation Services
- Medical Reimbursement Analysis
- Network Management

PHCS Healthy Directions (as of October 2012)

The table below represents the number of providers in PHCS Healthy Directions as of October 2012. Practitioners are counted only once as a primary care physician and once as a specialist (if applicable) in each state in which s/he practices. 'Unique Totals' represent provider headcount, disregarding multiple locations.

State	Facilities		Practitioners	
	Hospital	Ancillary	Primary	Specialist
Alabama	65	840	2,838	4,955
